INDEPENDENT AUDITOR'S REPORT

The Board of Directors
Elizabeth Development Company of New Jersey
Elizabeth, New Jersey

We have audited the accompanying statement of financial position of The Elizabeth Development Company of New Jersey as of June 30, 2011 and 2010 and the related statements of activities and cash flows for the years ended. These financial statements are the responsibility of The Elizabeth Development Company of New Jersey management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U. S. generally accepted auditing standards, Government Auditing Standards issued by the Comptroller General of the United States, and the provisions of U.S. Office of Management and Budget (OMB) Circular A-133, "Audits of State, Local Government and Non-Profit Organizations" and State of New Jersey OMB Circular 04-04 "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Elizabeth Development Company of New Jersey as of June 30, 2011 and 2010 and the changes in its net assets and its cash flows for the year then ended in conformity with U.S. Generally Accepted Accounting Principles.

In accordance with Government Auditing Standards, we have also issued a report dated March 23, 2012, on our consideration of The Elizabeth Development Company of New Jersey's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The financial statements and the schedule of expenditures of federal awards and state financial assistance as listed in the table of contents are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations"; and New Jersey OMB's Circular 04-04 "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid" and are not a required part of the basic financial statements of Elizabeth Development Company of New Jersey. This information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

NATURE OF ACTIVITIES

Description of Business and Grant Programs

The Elizabeth Development Company (EDC/the Company) was incorporated as a non-profit organization in the State of New Jersey on February 28, 1977 to administer financial assistance programs for small businesses, landowners and developers in the City of Elizabeth, New Jersey (the City).

EDC acquires property for redevelopment with the City and issues commercial loans to stimulate economic development. Additionally, the Company works with the Retail Skills Center to assist in identifying job opportunities, training, and placement of economically disadvantaged or unemployed individuals facing barriers to employment within Union County. In addition, it serves as the coordinating agency for the State's Urban Enterprise Zone Program (UEZ), the Elizabethport and Midtown Neighborhood Revitalization Tax Credit (NRTC) Programs in the City of Elizabeth.

Federal

Community Development Block Grants: A portion of the funds awarded to the City by HUD under a Community Development Block Grant Program (CDBG) are allocated to EDC for economic development purposes. EDC uses those funds to acquire property for redevelopment as well as to assist in moving development projects forward and administering the Micro Enterprise Loan Program. Re-payments of existing loans are returned to the City for future CDBG activities. Loans are granted over time periods ranging up to 6 years and are collateralized by mortgage liens on the related properties, machinery, and equipment. Interest rates are fixed at 2.0%.

City of Elizabeth

UEZ Statewide Loan Pool Programs: The purpose of this fund is to provide financial assistance, on a competitive basis, to projects located within the UEZ of the City of Elizabeth, which meet certain economic and employment criteria.

Loans made by the UEZ Statewide Loan Pool are available generally to finance up to 50% of eligible project costs or \$750,000 whichever is less.

UEZ Commercial Loan Programs: The purpose of the commercial loan program is to provide low interest, fixed rate financial assistance to Elizabeth businesses that meet certain program and employment criteria.

Loans made under the UEZ Commercial Loan Programs are available generally to finance up to ninety percent of eligible project cost or \$75,000, whichever is less.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011 AND 2010

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Company prepares its financial statements on the accrual basis.

Financial Statement Presentation

Net assets and revenues, gains, and losses are classified based on the absence or existence and nature of donor-imposed restrictions as follows:

Unrestricted Net Assets - Net assets that are not subject to donor-imposed stipulations.

Temporarily Restricted Net Assets - Net assets subject to donor-imposed stipulations that may or will be met either by actions of the Corporation and/or the passage of time.

Permanently Restricted Net Assets - Net assets subject to donor-imposed stipulations that they be maintained permanently by the Corporation. Generally the donors of these assets permit the Corporation to use all or part of the income earned on related investments for general or specific purposes.

Income Taxes

The Company qualifies as a tax-exempt organization under Section 501 (c)(3) of the Internal Revenue Code and, therefore, has no provision for federal income taxes. In addition, the Company has been determined by the Internal Revenue Service not to be a "private foundation" within the meaning of Section 509(a)(1) of the Code.

Financial Accounting Standards Board Interpretation No. 48 requires that an organization recognize in the financial statements the impact of its tax position if that position was not to be sustained on review, based on the technical merits of the position. During the year ended June 30, 2011, the Company performed an evaluation of its tax positions and did not note any matters that would require recognition in the statement of activities or which may have an effect on its tax-exempt status.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011 AND 2010

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial Statement Presentation (Continued)

Cash Equivalents

For purposes of the statement of cash flows, the Company considers all monies in banks and highly liquid investments with maturity dates of less than three months to be cash equivalents.

Cash and cash equivalents held by trustee include funds relating to the Midtown Elizabeth Transit Garage Redevelopment Project at June 30, 2011 (Note 7).

Investments

Investments in marketable securities and debt securities in the statement of financial position are valued at their fair values based on quoted market prices or prices which are provided by investment managers that are obtained from independent sources they believe to be reliable. Realized and unrealized gains and losses are included in the statement of activities.

Other Receivables

The Company considers all other receivables to be fully collectible: no allowance for doubtful accounts is required. If amounts become uncollectible, they will be charged to operations when that determination is made.

Revenue Recognition

Contributions received are recorded as unrestricted, temporarily restricted or permanently restricted support, depending on the existence and/or nature of any donor restrictions. All donor-restricted support is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activity as net assets released from restrictions.

Fixed Assets

Fixed Assets are recorded at cost or estimated fair value on the date received. Depreciation is computed using the straight-line method over the estimated useful life of the asset.

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

CDBG Loan Programs

The Company provides below-market-interest-rate loans with CDBG funds to private businesses within the City to retain and create job opportunities and help eliminate blighted areas. Loans may also be utilized for renovations and the purchase of capital assets. Loan re-payments are due to the City on a quarterly basis. The maximum loan amount is \$20,000 (70% loan 30% forgivable grant) and the borrower has up to six (6) years to repay the loan. Interest rates are set by the Company's loan committee and are currently 2.0%. Generally, the loans are collateralized by the borrower's real property, equipment, machinery and personal guarantees.

Land, Parking Garage and Equipment

Purchased land, parking garage and equipment are carried at cost. Donated assets are recorded using its estimated value on the date of acquisition. The Company provides for depreciation on the parking garage and equipment using the straight-line method over its estimated useful lives of twenty-eight years and three to five years, respectively.

Maintenance and repairs are expensed as incurred. Depreciation on assets acquired with grants-in-aid is recorded as a reduction of restricted net assets.

During 1997, NJ Transit entered into a ground lease with the City of Elizabeth for the property upon which the Midtown Elizabeth Transit Garage was constructed. The property was simultaneously subleased to EDC for 30 years with rental payments of \$1 a year required annually.

The Board of Directors
Elizabeth Development Company of New Jersey
Elizabeth, New Jersey

We have audited the financial statements of Elizabeth Development Company of New Jersey as of and for the year ended June 30, 2011, and have issued our report thereon dated March 23, 2012. We conducted our audit in accordance with U. S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Elizabeth Development Company of New Jersey's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Elizabeth Development Company of New Jersey's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Elizabeth Development Company of New Jersey's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was limited for the purposes described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses.

SUPLEE, CLOONEY & COMPANY

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Elizabeth Development Company of New Jersey's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended for the information of Elizabeth Development Company of New Jersey and federal and state audit agencies and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL
AND STATE FINANCIAL ASSISTANCE PROGRAMS AND
INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE
WITH OMB CIRCULAR A -133 AND NEW JERSEY OMB CIRCULAR 04-04

The Board of Directors
Elizabeth Development Company of New Jersey
Elizabeth, New Jersey

Compliance

We have audited the compliance of Elizabeth Development Company of New Jersey with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement and the New Jersey State Grant Compliance Supplement that are applicable to each of its major federal and state programs for the year ended June 30, 2011. Major federal and state programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal and state programs is the responsibility of Elizabeth Development Company of New Jersey's management. Our responsibility is to express an opinion on Elizabeth Development Company of New Jersey's compliance based on our audit.

We conducted our audit of compliance in accordance with U. S. generally accepted auditing standards; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and the provisions of U.S. Office of Management and Budget (OMB) Circular A-133 "Audits of State Local Governments and Non-Profit Organizations" and State of New Jersey OMB Circular 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about Elizabeth Development Company of New Jersey's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Elizabeth Development Company of New Jersey's compliance with those requirements.

In our opinion, the Elizabeth Development Company of New Jersey complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal and state programs for the year ended June 30, 2011.

Internal Control Over Compliance

The management of the Elizabeth Development Company of New Jersey is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal and state programs. In planning and performing our audit, we considered the Elizabeth Development Company of New Jersey's internal control over compliance with requirements that could have a direct and material effect on a major federal or state program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and New Jersey OMB Circular 04-04, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Elizabeth Development Company of New Jersey's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended for the information and use of management of the Elizabeth Development Company of New Jersey and federal and state audit agencies and is not intended to be and should not be used by anyone other than these specified parties.
